

Educational technology consultation and advisement.

Mike Ackerman was the Principle Investigator on a 1.5 million dollar grant from the American Nurses Foundation to integrate extended reality into the undergraduate curriculum at The Ohio State University College of Nursing. He has a long history of integrating impactful technology in both the academic and practice setting. Some of the services provided include:

- XR software evaluation and selection
- XR hardware evaluation and selection
- Designing and implementing XR programs
- Evaluating outcomes of educational technology implementation
- Evaluation and appropriate use of artificial intelligence into healthcare
- Developing innovative educational technology solutions to meet end user needs

If a service is not listed, please reach out and we can discuss your needs. If Ackerman Consultants does not have a solution, we may be able to help you find one.
